**INDIVIDUAL PROJECT/DISSERTATION-COLONEL
NIXON HARNAL: 2016**

Dear Sir,

1. Please refer to letter No MSRUS/SPWCA/PROJ/022 dated 04/04/2016 the subject matter.
2. CNC- Hospital has got team of professional doctors & medical staff who are well qualified & dedicated with rich experience in their respective fields. I am ex-AIIMS doctor with about 12 years of experience in brain and spine surgery including micro-vascular and paediatric neurosurgery. It has been our sincere effort on our part to provide Hospital Administration student- Colonel Nixon Harnal 'hands – on' experience in the Specialist Hospital setup. The student was deeply involved in the process and visited/observed activities of various departments and contributed positively with his experience. The student has fully exploited his expertise/experience as an Army Officer and displayed efficient Human Resource management skills to the advantage of the Hospital. The topic of dissertation for a 75 bedded Neuro specialist hospital is unique and challenging. The study will act as a milestone and help us to better our patient service delivery standards apart from facilitating the accreditation process.
3. The performance of the student has been 'exemplary' and I am fully confident that all specified 'ILO' has been fully
