Admissions Open For 2020-2021

Faculty of B.Tech. Programme in Civil Engineering

B.Tech programme in Civil Engineering is aimed at producing graduates with critical, analytical and problem solving skills, ability to think independently and out of box, to pursue a career in Civil Engineering or higher studies.

Until recently Civil Engineering teaching was limited to planning, analysis, design and execution of different types of infrastructure like buildings, roads, bridges, dams and power plants. However, increasing technological sophistication and demand for higher living standards fuelled by economic growth and concerns about environmental impact have changed the scope of Civil Engineering curriculum.

B.Tech. in Civil Engineering

Programme Highlights:

- Outcome based education with learner centric delivery and applied learning
- Flexible and dynamic curriculum implementing requirement of industry
- 5 mini projects and one major project covering all important areas of Civil Engineering
- Excellent Institute - Industry interaction resulting in guest lecture, Internships, site visit and placements
- Peer learning through group projects
- Gateway to global learning experience
- State of the art laboratories in Geotechnical, Concrete, Highway, Hydraulics, Environmental, Applied Engineering Geology, Computer aided applications, Strength of materials and Surveying

Achievements:

- National / International Placements
- Best Paper awards to projects and dissertations at various national level exhibitions and conferences
- Internship for undergraduate and postgraduate students at Moscow State University of Civil Engineering as well as St.Peterburg University of Architecture and Civil Engineering
- MoUs with International Universities like St.Peterburg University of Architecture and Civil Engineering, Moscow State University of Civil Engineering, University of Illinois, Chicago and Michigan Technological University, Houghton
- Association with Professional bodies like ASTR, ISTE, ACCE

Inspiring Applied Thinking
