Applied Brilliance Makes All The Difference

Admissions Open For 2020-2021

Faculty of B.Tech. Programme in Electrical & Electronics Engineering

Department of Electrical Engineering offers Bachelor of Technology (B.Tech) in Electrical and Electronics Engineering, Master of Technology (M.Tech) in Power Electronics and Drives and Ph.D programme.

Thrust area of research is Power electronics and drives application in robotics and mechatronics, Artificial Intelligence and Machine learning for power system and smart microgrid, Control systems for Electric Vehicle, Power electronics and drives for Electric Vehicle.

B.Tech. in Electrical & Electronics Engineering

Programme Highlights:

- Learner centric education
- Courses are designed to imbibe core competencies
- Gateway to global learning experience
- Emphasis on applied learning
- State of art facilities for interdisciplinary research
- Wide spectrum of industry relevant elective courses
- Platform to participate in innovative competitions/projects
- Training on computational tools for design and analysis of systems
- Regular industrial visits
- Placement in leading companies
- MoUs signed with foreign universities for joint academic and research activities - University of Illinois, Chicago; Texas A&M; University of Southern California

Inspiring Applied Thinking
