About the workshop

Join us for an immersive hands-on workshop designed to empower participants to create their own custom IT applications with unprecedented speed and affordability. Discover the cutting-edge landscape of low-code software platforms such as Zoho Creator in our workshop, where you'll delve into innovative ways to create applications without prior expertise in conventional programming languages like Java, C++, or Python. This workshop is tailored for healthcare professionals seeking process optimization, aspiring entrepreneurs with digital healthcare visions, and IT enthusiasts' eager to explore application development without the complexities of traditional programming languages. By offering a comprehensive approach, participants can harness the potential from building patient management systems to automating administrative tasks, ensuring endless possibilities for innovation and efficiency.

Who may attend: Students of

- Healthcare management
- Public Health
- Medical and Nursing
- Allied Health Sciences
- Technical and Applied Sciences

Workshop Highlights

- Gain essential programming skills applicable across professions
- Rapidly develop IT applications with low-code platforms like Zoho Creator
- Create reports, dashboards, and KPIs for streamlined business processes
- Transform into a Citizen Programmer without prior coding experience
- Future-proof your career according to industry demand for programmer expertise

Register Early – bird Registration (31st May 2024)
Now Rs 1000/- (including 18% GST)

**Venue - ALC, Seminar Hall, M.S. Ramaiah
University of Applied Sciences, Bengaluru.**

Registration Amount

Date of event | **25th June 2024**

S. no	AMOUNT
