

Faculty of Natural Sciences
Department of Chemistry

Cordially Invite you to attend Guest Lecture on

**“Crafting New Medicines: The Role of Chemistry in
Drug Discovery”**

Will be Delivered by

Dr. Gururaj M. Shivashimpi

Founder and CEO

SudhiShubha ChemSynthons LLP

Bangalore

Guest Lecture highlights:

- Introduction to drug discovery and its importance in modern healthcare
- Journey of a drug: From laboratory research to market
- Role of organic, medicinal, analytical, and computational chemistry in drug development
- Real-world examples of successful drug discoveries
- Challenges involved in developing safe and effective medicines
- Emerging trends in pharmaceutical and medicinal chemistry research
- Career opportunities in drug discovery, pharmaceutical industries, and research laboratories
- **Who should attend? UG/PG students/Research Scholar from Chemistry, Pharmacy, Allied health Sciences.**

Date 25/05/2026,

Time: 10:30 AM

Place: A205, RTC Campus
