Program Overview

M. S. Ramaiah University of Applied Sciences (RUAS) through its Center of AI for Social Good (CAISG) is launching a 5-day interdisciplinary Summer Immersion Program designed for students of classes 9, 10, 11 and 12. The program will introduce school students to emerging fields in Artificial Intelligence, Machine Learning, Data Science, Business & Entrepreneurship, Psychology, Computational Social Sciences, Economics, Public Policy and Law, through hands-on and experiential learning.

The initiative leverages RUAS's applied ecosystem to build early academic curiosity.

Key Highlights

- **WORKSHOP MODE:** Immersive hands-on learning in AI, ML, and interdisciplinary domains at RUAS.
- **PRACTICAL EXPOSURE:** Real-world application of data thinking, coding, smart technologies, and their legal and ethical implications.
- **SESSIONS BY RUAS PROFESSORS & INDUSTRY EXPERTS:** Guidance from RUAS faculty and invited experts across engineering, social sciences, law, and management.
- **CAREER COUNSELLING:** Insights into future STEM, Law, Policy, and Business careers for early exploration.
- **MINI-PROJECT:** Build practical skills through application-oriented interdisciplinary projects.
- **MOOT COURT SESSION:** Mock trial experience
- **PRESENTATION BY PARTICIPANTS:** Showcase achievements and problem-solving in a culminating presentation.

Domain Exposure

To provide a truly interdisciplinary exposure, the Summer Immersion Programme will involve the following domains:

- Data Sciences, Artificial Intelligence & Machine Learning
- Law & Public Policy
- Economics, Entrepreneurship & Business
- Psychology
- Computational Social Sciences

Centre Overview

The Centre of AI for Social Good (CAISG) at M. S. Ramaiah University of Applied Sciences (RUAS) envisions becoming a leading hub for integrating Artificial Intelligence (AI) with Science, Social Science, and people science to achieve meaningful and measurable social transformation. AI for Social Good focuses on leveraging advanced AI technologies to address pressing societal challenges while promoting equity, inclusion, and sustainable development. The Centre applies ethical, human-centric AI solutions across critical domains such as health, education, livelihoods, and public policy, with the goal of generating real-world social impact.
