Memorandum of Understanding (MoU) - Summary

MS Ramaiah University of Applied Sciences is committed to excellence in research across diverse disciplines, from groundbreaking discoveries in health sciences and engineering sciences across 8 Faculties, 2 Schools and 3 Constituent Colleges. The University motivates research and academic related activities through memorandum of Understanding (MoU) to enable researchers to start their research and provides a platform for academic activities. Memorandums of Understanding (MoUs) are crucial for universities as they facilitate and formalize collaborations, promoting academic and research partnerships, knowledge exchange, and mutual benefit. They provide a framework for building relationships, establishing shared goals, and outlining the terms of cooperation, which can lead to joint projects, research programs, and student/faculty exchange opportunities.

The purpose of the MoU is to develop co-operation and promote mutual understanding and excellence in practice-based education, research and knowledge exchange between the parties.

International collaborations helps to understand the difference in the education system and enriches the quality of education. These opportunities open a window of growth opportunities for the students, by allowing them to explore beyond boundaries, the areas of research also increase. International collaborations are also accompanied by a cultural awareness that comes with each project the student participates in. These projects will help to develop important life skills like team building, leadership and tolerance.

Besides this collaboration also helps the institution in curriculum building, the courses are designed keeping various parameters in mind. Making the course more comprehensive and rich, adhering to the international standards of learning.

Industry Partnerships and their benefits:

Partnering with companies and businesses gives universities access to more resources to fund their research and diversify their research areas. They can also receive industry feedback and guidance on their inventions, helping them to improve further.

Industry partnerships also allow universities to expose their students to real-life industry jobs and problems they might face in the outside world.

Students turning into full-time employees in tie-up companies may serve as an effective Productive tool for the institution. High placement numbers can be used to entice prospective future students and possible corporate partners.

External Collaborations

The faculty and Students are actively engaged in collaborations at the National and International level with Universities and Industries. Key MOU's and NDAs were signed to facilitate formal collaborations. These have led to proposals being written for external funding such as ISSR, ICMR, DST, BIRAC, DBT, VGST Indo-Australian, Indo-UK and other calls for proposals as well as led to student internships (at industries), consultancy with faculty members. Several dozens of International Universities visited to engage in research collaborations, student fellowships in complimentary areas of research.

The University motivates Research through MoU by having collaborations with National/ International Academic Institutes and Industries in the field of Medical, Engineering, Biomedical Research, Social Sciences and Management studies. RUAS has collaborated with 43 International Universities across the globe and 117 National Industries and Universities in India.

RUAS started with MoU in 2015-2016 with 3 National & 3 International Universities & Industries as given Table 1.

Table 1: Summary of MoUs /Collaborations (2015-2016)

MoUs	National / International	Academia	Industry	Total
2015-2016	National	0	3	3
	International	2	1	3
	Total	2	4	6

In 2016-2017, one National and 2 International MoUs have been established with Industries and Institutions as shown in Table 2.

Table 2: Summary of MoUs /Collaborations (2016-2017)

MoUs	National / International	Academia	Industry	Total
2016-2017	National	0	1	1
	International	2	0	2
	Total	2	1	3

In 2017-2018, 7 National and 2 International MoUs have been signed with Industries and Academic Institutions as shown in Table 3.

Table 3: Summary of MoUs /Collaborations (2017-2018)

MoUs	National / International	Academia	Industry	Total
2017-2018	National	3	4	7
	International	2	0	2
	Total	5	4	9

Table 4: Summary of MoUs /Collaborations (2018-2019)

MoUs	National / International	Academia	Industry	Total
2018-2019	National	0	7	7
	International	2	0	2
	Total	2	7	9

An Impact analysis of the National and International collaborations and subsequent activities indicate valuable additions to foster educational, cultural and academic benefits to both students and faculty. The year 2018-2019 has seen an international exchange of students and faculty. During this period, as part of these collaborations, distinguished lecturers were also organised. The student impact was seen an improved cultural understanding thereby influencing their outlook and also an increased confidence. The faculty were able to upskill their knowledge and develop awareness about the various developments relevant to their field. From an institutional perspective these collaborations and exchange programs resulted in enhanced reputation and received visibility in national and global level.

A summary of the activities during the year 2018-2019 following these collaborations include:

- International
 - Student Exchange:31
 - Faculty Exchange: 3
 - Distinguished Lecture: 1
- National
 - Student Exchange: 3
 - Faculty Exchange: 2
 - Collaborative Research: 1

Table 5: Summary of MoUs /Collaborations (2019-2020)

MoUs	National / International	Academia	Industry	Total
2019-2020	National	4	11	15
	International	11	0	11
	Total	15	11	26

During the year 2019-2020, distinguished lecturers and exchange of faculty and students from various faculties materialised. It was observed that majority of students who participated in the exchange program has improved their confidence and developed a sense of independent thinking. The distinguished lecture is a boon to the faculty to get exposed to the various new avenues of research and development. The international collaborations helped to improve the visibility of the organisation leading to enhanced reputation. A four day course was also conducted as a part of the collaborative work with Texas A & M University. The collaboration with national agencies like CMTI resulted in gaining access to their

sophisticated equipment. Mazumdar Shaw Medical Centre helped the students in gaining internship and thereby acquiring necessary skills for employment. Further, two joint research proposals and one collaborative research was also fruitful with these activities.

A summary of the activities during the year 2019-2020 following these collaborations include:

- International
 - Student Exchange:17
 - Faculty Exchange: 5
 - Joint proposal: 2
 - Distinguished Lecture: 6
 - Collaborative Research: 3
 - Hackathon Judge: 1
 - Bridge course: 1
 - Four day course: 1

- National
 - Student Exchange: 17
 - Faculty Exchange: 7
 - Joint proposal: 2
 - Distinguished lecture: 1
 - Collaborative Research: 2

Table 6: Summary of MoUs /Collaborations (2020-2021)

MoUs	National / International	Academia	Industry	Total
2020-2021	National	0	8	8
	International	5	0	5
	Total	5	8	13

During the year 2020-2021 disrupted by COVID pandemic, all efforts are taken to keep the spirits of exchange and collaborations to improve the outlook and exposure of students and faculty. The pandemic has also opened the avenues of reaching out to a larger group of people across the world through online. During this time, students and faculty in Public Health has undergone exchange program. Also, iSTEP online courses for Public Health Professionals and students was another stepping stone in addressing complex health challenges and leading to a more resilient healthcare system. Some of the national collaborations resulted in agri-mechanisation, research works on joint development of products using Malted millets and Phytochemical Analysis and the Effect of Consumption of Arecanut.

A summary of the activities during this year following these collaborations include:

- International
 - Student Exchange:32
 - Faculty Exchange: 4
 - Joint Academic Program: 2
 - Distinguished Lecture: 3
 - Collaborative Research: 1
- National
 - Faculty Exchange: 10
 - Joint proposal: 2
 - Collaborative Research: 2

Table 7: Summary of MoUs /Collaborations (2021-2022)

MoUs	National / International	Academia	Industry	Total
2021-2022	National	1	20	21
	International	2	1	3
	Total	3	21	24

The year 2021-2022 witnessed collaborations with Universities, Industries and Research institutes both international and national stature leading to a successful exchange of students and faculty for improving the skills and exposure to various practices adopted across the domains. The exchange programs offered student and faculty a valuable component in enhancing the educational and industrial awareness of the skills and requirements. These collaborations resulted in joint publications, academic programs, joint proposals and online CME programs. The industrial collaboration with IPR Services has facilitated IP licensing and Technology Transfer. The public policy education, training and joint research is accelerated by the association with Public Affairs Centre. The association with plywood industries research has led to transfer of technology for developed products to industries and also resulted in jointly working on research proposal on natural fibre composites.

A summary of the activities during this year following these collaborations include:

- International
 - Faculty Exchange: 2
 - Joint Proposal: 1
 - Joint Academic Program: 1
 - Distinguished Lecture: 3

- National
 - Student Exchange: 26
 - Faculty Exchange: 13
 - Joint proposal: 2
 - Joint Academic Program: 1
 - Distinguished Lecture: 3
 - Joint Publication and Patent: 2
 - Collaborative Research: 6

Table 8: Summary of MoUs /Collaborations (2022-2023)

MoUs	National / International	Academia	Industry	Total
2022-2023	National	2	14	16
	International	2	1	3
	Total	4	15	19

The collaborations with various academia, industry, medical agencies and government organisation have resulted in excellent outcomes during 2022-2023. The collaboration with Indian Technology Congress Association (ICTA)-TSC Technologies (TSC), Bengaluru has resulted in the Ramaiah Satellite Mission which contributes to the Azadi Ka Amrit Mahotsav (National Mission of Launching 75 Satellites). The vigorous activities planned in association with industries like L & T has resulted in design, development, and delivery of trainings using laboratory resources which enhanced the practical skills and knowledge of students and also ensuring a well-rounded learning experience in line with industry requirements. The Human subjects facilitation for Bionic Arm Project is another outcome of the association with Mobility India. The certifications on ACCA and CMA for undergraduate students, post graduate students, post graduate certification program in Facility Management and Certification program on Technology and Innovation Management for Industry delegates are achieved due to the industry linkage. The collaborations between medical institutions have resulted in getting exposure to advanced clinical care and training. The observer ship has enlightened the medical students with many different aspects of medical care and practice. Another outcome of association resulted in COVID warrior upskilling program-Advance nurses growth excellence and learning (ANGEL) and offering course on endoscopy nursing.

A summary of the activities during this year following these collaborations include:

- International
 - Student Exchange:12
 - Faculty Exchange: 2
 - Collaborative Research: 1

- National
 - Student Exchange:30
 - Faculty Exchange: 7
 - Joint proposal: 1
 - Joint Certification and Academic Program: 6
 - Upskilling Program: 1
 - Life Support course: 1
 - Collaborative Research: 7

Table 9: Summary of MoUs /Collaborations (2023-2024)

MoUs	National / International	Academia	Industry	Total
2023-2024	National	2	6	8
	International	7	1	8
	Total	9	7	16

During the year 2023-2024 collaboration with International and National were established. Out of the 8 International collaborations, 7 from Academia and 1 from Industry. In National level, 2 from Academics and 6 from Industries.

Table 10: Summary of MoUs /Collaborations (2024-2025)

MoUs	National / International	Academia	Industry	Total
2024-2025	National	3	5	8
	International	2	0	2
	Total	5	5	10

During the year 2024-2025 collaboration with International and National were established. In International- State University of New York, Johns Hopkins University and in National level, 3 from Academics and 5 from Industry MoU have been signed. Australian National University Delegation team visited RUAS on Nov 20th, 2024.

Australian National University Delegation – Nov. 20th 2024

State University of New York at Stony Brook, December 23rd 2024

Prof. Hevin Kemker, Johns Hopkins University, July 31st 2024

Table 11: Summary of MoUs /Collaborations (2025-2026)

MoUs	National / International	Academia	Industry	Total
2025-2026	National	4	15	19
	International	1	1	2
	Total	5	16	21

During the year 2025-2026 had two significant milestone by signing MoU with Construction Management Training Institute (CMTI), Bangalore with Dept. of Civil Engineering.

CMTI collaboration has helped Practical exposure, Enhanced expertise, Entrepreneurial opportunities and improved curriculum to students.

MoU Protocol signed with CMTI

During the year 2025-2026, FHMCT had a collaboration with Radisson Blu for Trainings, placements and Related services, Green Path Eco Hotel for Curriculum Design & Content Development, Industrial Training & Visits, Skill Development Programs, Event & Workshops, Guest Lectures & Career Counseling, Faculty Development Programs, Placement of Trained Students. Vishaal Natural Food Products for Collaboration for knowledge sharing, research development, practical applications, and skill-building related to food processing and food packaging. MoU with Adevo Academy for Creating skill development and hands-on training for tribal and other underprivileged communities.

MoU with Radisson Blu

MoU with Vishaal Natural Food Products

MoU with Green Path Eco Hotel

MoU with Adevo Academy

An International MoU was signed with Vira International Limited, London for Cultural Exchange and Practical Training experiences for graduates & undergraduates of the University. Free Workshops, Seminars, Internship programs for students.

MoU with Vira International Limited, London

Recent Collaborative Initiatives

Table 14: Consolidated Summary of Collaborations

Out of 160 MoUs, 43 are International and 117 are National; 20 are open ended and 57 are Active.

MOUs	
International	43
National	117
Total	160

Active MoU	57
Open ended MoU	20
Validity Expired MoU	83
Total	160

Conclusion:

Collaborations between academia and industry go hand in hand. Collaborations with industries gave students exposure to the business world and helped them to build the essential skills needed outside of the classroom to face interviews and compete in the real world.

University research is used by the industry and transformed into products and services. The research and knowledge developed is used for its application at regional, national and global levels.
