

Action Taken Report

Name of the faculty	RINER
Programme	P.B.B.Sc in Nursing 2022-2024 Batch
Period for which feedback taken	Academic year 2023-24, September 2024
Type of feedback	Course feedback by students
Year covered	II Year
Name of the feedback coordinator	Manjunatha K

Sl no	Course on which feedback obtained	Critical Observation from feedback	Action taken with target date	Signature of the Course leader & HOD
1	Sociology	<ul style="list-style-type: none"> Teaching was good (5) Take classes rather than assigning students with seminar on topics where teachers don't even repeat classes. (1) Course delivery can be improved by the use of more realistic example and need to understand individual differences among students. Need to explain concept with more examples Need to involve students in the class room discussions for better understanding. Teacher has to plan in the starting how to finish up the course and all the requirements so that in the last students don't get burdened 	<p>- Assignment & seminars will be given in the beginning of academic year & will be completed two months prior to their exams.</p> <p>- As sociology itself general science we are following discussion & participatory method while teaching</p>	<p><i>[Signature]</i> Dr. K. S. Sathya . US</p>
2	Community Health Nursing	<ul style="list-style-type: none"> Everything is good. I wish there was proper planning for PBBSc class. More class need to be taken by the teacher. Last moment the important topic was taken and that's also not all (2 students) Community being a vast subject, it will be good if complete classes are taken in their respective assigned topics Teachers be more thorough with the syllabus and not missed out topics Nil Teacher should be punctual Provide notes 	<p>* The Suggestions provided by the students will be reviewed & incorporated for the upcoming batch</p> <p>* Class notes will be uploaded to the ERP portal for the easy access.</p>	<p><i>[Signature]</i> 21/10/24</p> <p>for <i>[Signature]</i> 7/10/24</p> <p style="text-align: right;">Head of the Department Community Health Nursing RINER</p>

3	Mental Health Nursing	<ul style="list-style-type: none"> Everything is good (3) Nil (3) Teachers were helpful whenever needed. Conduct more tests Teachers be more regular to class as per the routines schedule More practical explanation Need to explain concept. Avoid reading from text textbook Explain concept with Videos and images of the psychiatrist diseases Library should be up to date as per new syllabus. Books are so old and very less in library. students should get more exposure to patients. In teaching hospital, patients number is less and sometimes no patient. Please give more clinical exposure to students. 	<p>Being course leader, with improve ment test, conducted remedial tests also for failures. For next batch & assure will conduct tests (class) after each unit.</p> <p>- For practical knowledge, we are sending students for Spandana rehabilitation center, just her also continues the same thing.</p> <p>- Suggestions provided by the students will be reviewed & incorporate for upcoming batch</p>	<p>Vidya 9/10/24</p> <p>for 9/10/24.</p>
4	Introduction to Nursing Education	<ul style="list-style-type: none"> Teaching was good (2) Nil (4) Teacher should have more knowledge regarding the subject and content and they should explore n explain more regarding the topic. Class should be taken in more interesting way not to be monotonous, since the subject is already boring (2) Books related to the syllabus content should be made available in the library (2) Teaching material/notes should be provided more. For this subject there are various books but not enough content (2) 	<p>The suggestions provided by the students will be reviewed and incorporate for the Academic year.</p>	<p>8/10/24</p> <p>for 8/10/24</p>
5	Introduction to Nursing Administration	<ul style="list-style-type: none"> Teaching was good (3) Teachers were really helpful. Teacher explained concept with clinical examples Teacher's delivery was good. He explained the content in simple words which is easy to understand for everyone. Sir was very organized and finished the syllabus and requirement in a smooth way. Administration subject teachers are great, knows how to take class in college students level. No partiality was done. Nothing to improve (2) 	<p>No critical observation were observed.</p>	<p>Manjusha</p>

6	Introduction to Nursing Research & Statistics	<p>Theory</p> <ul style="list-style-type: none"> • Teaching was good • Engage students more in the classroom • Class should be arranged properly • Teacher should explain concept with examples and create interest among students (2). • Provide learning materials. <p>Practical</p> <ul style="list-style-type: none"> • Students were not given proper time and days for research projects. • Research project guides should be willing to guide and be made available to students. Just giving us instructions to copy paste from the previous projects makes no sense of doing the project n being a guide who is not willing to sit even an hour to work along with students. • Guide was not very helpful for research work, she's very hard to approach and not at all clearing all the doubts. 	<p>• This subject classes were combined with III BSc Nursing Students, hence arrangement was little difficult.</p> <p>• all the learning materials was provided.</p> <p>• enough time was given to group to execute the research Project.</p> <p>• guides were available for clarification.</p> <p>• Measures will be taken to avoid such issues in next academic year.</p>	<p>x. Sangeetha 17/10/24</p>
