Ramaiah University of Applied Sciences

BECAUSE A BEAUTIFUL SMILE
DEMANDS A STRONG
FOUNDATION

The Department of Periodontology is committed to excellence in patient care, advanced clinical training, academic learning, and research in the field of periodontal and implant sciences. Department focuses on the prevention, diagnosis, and treatment of diseases affecting the supporting structures of teeth and surrounding oral tissues.

We strive to provide evidence-based, patient-centered care with modern technology and specialized treatment protocol

LASER CLINIC

The LASER Specialty Clinic offers advanced, minimally invasive treatment for a wide range of periodontal and soft tissue conditions. Utilizing state-of-the-art laser technology, the clinic provides precise treatment with reduced discomfort, minimal bleeding, faster healing, and improved patient comfort. Services include periodontal therapy, gum depigmentation, soft tissue surgeries, peri-implant care, and esthetic procedures, ensuring effective and patient-friendly dental care.

STHREE' Oral Health Centre

STHREE' Oral Health Centre is a dedicated initiative focused on promoting and improving the oral health of women across all stages of life. The centre provides comprehensive, personalized dental care while addressing oral health concerns associated with adolescence, pregnancy, menopause, and overall women's well-being. With an emphasis on preventive care, education, and compassionate treatment, the centre strives to empower women to achieve and maintain optimal oral and general health.
